✕   **header, nav & footer**   💬
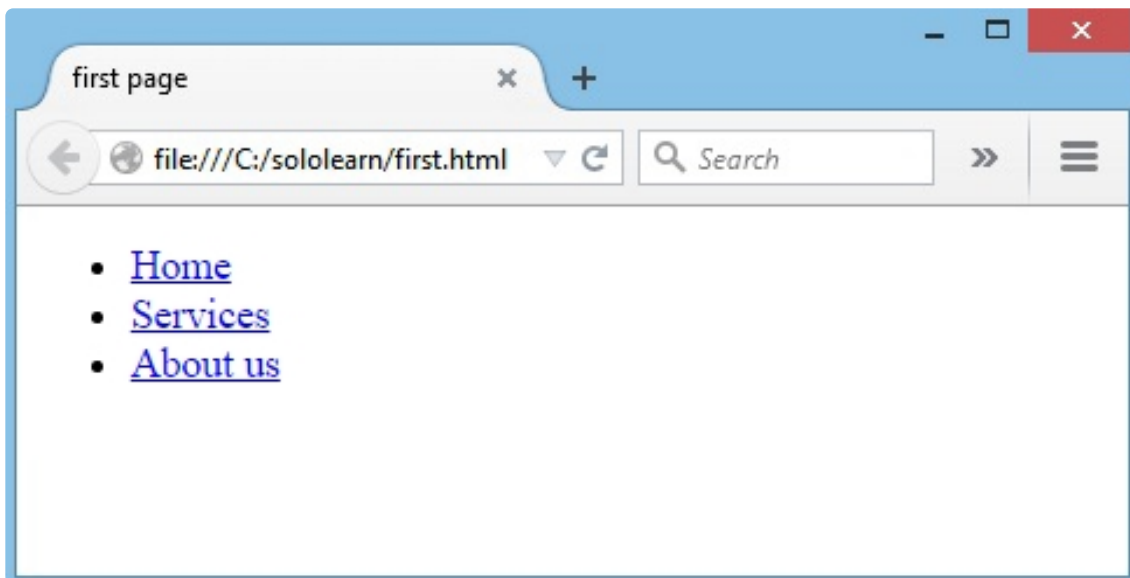

The <nav> Element

This tag represents a section of a page that links to other pages or to certain sections within the page. This would be a section with navigation links.

Here is an example of a major block of navigation links:

```html
<nav>
    <ul>
        <li><a href="#">Home</a></li>
        <li><a href="#">Services</a></li>
        <li><a href="#">About us</a></li>
    </ul>
</nav>
```
                                                                              HTML
